WEBINAR:

CANVAS + INTERNET2 + THE UNIVERSITY OF WASHINGTON

- About three years ago, UW chose Canvas for the central LMS. Beforehand, they had Blackboard and a few other systems. It varied by campus.
- Currently, they have 2000 courses with 36,00 students, or 19% of their classes using Canvas. We were shocked it was so low.
- They highlighted features that we considered reasons to use any LMS, not just Canvas.

The webinar concluded at 1:00 pm.
