**Time Windows:** Time windows are used to set booking priorities during priority registration. The time windows are stored on the Advising Data Tab in the Student Master Data. There are nine (9) windows per day opening on-the-hour beginning at 8:00 a.m. and ending at 4:00 p.m., (excluding weekends) each window will add 200 additional students based on a priorities list. Once the student's window opens it remains open until the end of priority registration.
