

**JAMES O. EASTLAND COLLECTION
FILE SERIES 1: PERSONAL/POLITICAL
SUBSERIES 16: EXECUTIVE BRANCH CORRESPONDENCE**

The two boxes in this subseries contain correspondence between Senator Eastland (or his staff) and the executive branch of the federal government. Files are arranged sequentially by presidential administration, and then by the office of the correspondent. "White House Correspondence" folders include the exchange of letters with the president as well as with White House staff. These files also include separate folders containing White House press releases. Direct correspondence with presidents and vice-presidents after they have left office appear in folders at the end of their respective administration files. Copies replace all original documents signed by presidents and vice-presidents (originals reside in a VIP Restricted Access location).

The container list for this subseries contains a description of every document, including the names and titles of correspondents, dates, and a brief description of the content. Note that executive correspondence also appears in the subseries Patronage, Nominations, Employment, and School References, as well as in those of the Routine Requests subseries regarding appeals for Eastland's assistance in gaining acceptance of invitations to various Mississippi events. Photographs of presidents and vice presidents reside in the Photographs subseries.

The contents of this subseries have been digitized in their entirety and are available as full-text documents in the James O. Eastland Collection Manuscript digital collection.
