

**JAMES O. EASTLAND COLLECTION
FILE SERIES 3: CONSTITUENT FILES
SUBSERIES 1: ISSUE CORRESPONDENCE**

This subseries contains 166 boxes of letters on general policy and political subjects from Eastland's Mississippi constituents as well as interested organizations and individuals from around the nation and the world. The correspondence dates from 1937 to 1978, with the bulk from 1941 to 1978. Frequent topics include agriculture and cotton, civil rights, communism, the economy, education, energy, the environment, foreign policy, health care, immigration, industry, labor, media, the military, natural resources, various individual political figures, Social Security, taxes, transportation, and veterans, as well as various government branches and institutions like the judiciary, the Federal Bureau of Investigation, the Department of Health, Education, and Welfare, and the Tennessee Valley Authority. Researchers interested in constituent reaction to specific federal projects within the state of Mississippi should also examine the State/Local subseries.

Files are organized alphabetically by general subject followed by year and subcategory if necessary. Undated material appears at the chronological end of the general subject category. Researchers should check a variety of subject terms when searching the file lists. For instance, researchers interested in Mississippi's water resources might try "Water" as well as "Department of the Interior," "Natural Resources," "Corps of Engineers," "Civil Works," and "Tennessee Valley Authority." This subseries also includes files specifically about Eastland, including "Eastland Addresses" (constituent responses to speeches or interviews by Eastland) and "Eastland Profiles."

A few large items are stored separately in Eastland Oversized Box 1, Folder 7. A removal sheet included among the regular sized files will cross-reference information on separated material.
