

**JAMES O. EASTLAND COLLECTION
FILE SERIES 3: CONSTITUENT FILES
SUBSERIES 7: CORPORATE CASE FILES**

The Corporate Case Files subseries consists of twenty-three boxes that record the actions of Senator James O. Eastland's office on behalf of corporations, companies and small businesses (located largely in Mississippi or with interests in the state) requesting help and intercession with various federal agencies. Contents date from Eastland's 1941 appointment to the Senate to his retirement in 1978 and includes requests for aid from family farms, agribusinesses, natural gas and oil companies, lumber companies, national corporations, and small businesses.

Files are arranged alphabetically by the name of the business entity. Folder descriptions include the government agency involved as well as the dates of the content. Many of the corporate cases are from World War II and its aftermath and concern matters with the War Production Board, Office of Price Administration, or the distribution of war surplus after the war. Others files document efforts to receive loans from the Small Business Administration or favorable action from the Farmers Home Administration.

Researchers should also examine the State/Local subseries for additional files with information on banks, public utilities, local telecommunication companies, hospitals, and development corporations.
