

**JAMES O. EASTLAND COLLECTION  
FILE SERIES 4: LEGISLATIVE FILES  
SUBSERIES 4: SUBJECT FILES**

This subseries contains thirteen boxes of material acquired by Senator James O. Eastland's office on a variety of subjects. Most of the files hold publications although some may include clippings and correspondence. The bulk of the files date from the 1940s to 1970s although some material predates his Senate tenure. Frequent topics include agriculture, civil rights, communism, foreign policy, the judicial system, labor, taxes, transportation, and youth organizations. There are also files focused on individuals or specific groups such as the Citizens Council, the Coordinating Committee on Fundamental American Freedoms, and the Federation for Constitutional Government.

Files are organized alphabetically by general subject followed by year and subcategory if necessary. Researchers should check a variety of subject terms when searching the file lists. For example, researchers interested in World War II might try "World War II" as well as "Military" and "Post-War Planning."

A few large items are stored separately in Eastland Oversized Box 1, Folder 8. A removal sheet included among the regular sized files will cross-reference information on separated material.
