

Jamie L. Whitten Collection

Series 4: Departments & Agencies

The sixty-six boxes in this series contain material related to federal government departments, agencies, and commissions. It includes routine communications from these governmental agencies, specific information related to state and local grants and programs, constituent issue correspondence about the agencies, and correspondence on the subject with congressional colleagues.

This series preserves the original filing system of Representative Jamie Whitten, although the archives has removed constituent case files (due to privacy and confidentiality issues) and has added documents and files where appropriate. The earliest files date from 1947 and the latest from 1994. However, the bulk of the files date from 1974 to 1994. Several items moved to larger storage in the Modern Political Archives Map Case are listed at the end.

Researchers should check appropriate department-level folders for material on specific agencies even where files exist for those agencies. Department and agency names changed over the years and this filing system reflects those transformations.

The Corps of Engineers and the Post Office possess their own series within this collection due to the substantial number of the files involved.
