- Meeting schedule

Facebook to offer Vanity URLs

- ◆ Friday, June 12th, at 11:01 PM (CDT)
- ◆ www.facebook.com/username/

Soon you will be able to have a username

Starting on Friday, June 12th, at 11:01pm in your time zone, you'll be able to choose a username for your Facebook account to easily direct friends, family, and coworkers to your profile.

Check out the [Facebook Blog](#) for more information.

You can start picking a username in:

0 days **11** hours **38** minutes **24** seconds

(This page will automatically update when the countdown completes.)

Wolfram Alpha

“...to make all systematic knowledge immediately computable and accessible to everyone. We aim to collect and curate all objective data; implement every known model, method, and algorithm; and make it possible to compute whatever can be computed about anything. Our goal is to build on the achievements of science and other systematizations of knowledge to provide a single source that can be relied on by everyone for definitive answers to factual queries.”

See simple screen sharing in action.

What's Glance?

In one click, guests see your screen from their browser. Or you can see and control their screen. A deceptively simple idea that lets everyone see what you're talking about – quickly and dependably.

One tool. Endless possibilities.

Web Demos, Remote Tech Support, Online Training, Webinars. Glance does it all for one low price. No confusing downloads, no agonizing pauses waiting to connect. Just sweet screen sharing simplicity.

Google Wave

What is a wave?

- ◆ A wave is equal parts conversation and document.

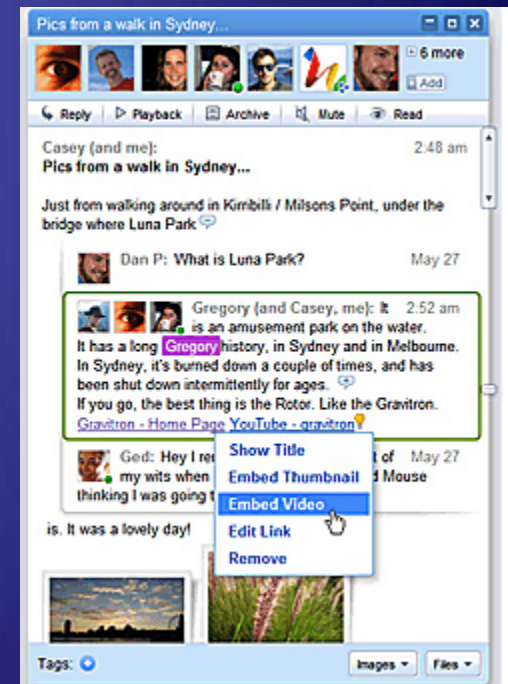

People can communicate and work together with richly formatted text, photos, videos, maps, and more.

- ◆ A wave is shared.

Any participant can reply anywhere in the message, edit the content and add participants at any point in the process. Then playback lets anyone rewind the wave to see who said what and when.

- ◆ A wave is live.

With live transmission as you type, participants on a wave can have faster conversations, see edits and interact with extensions in real-time.

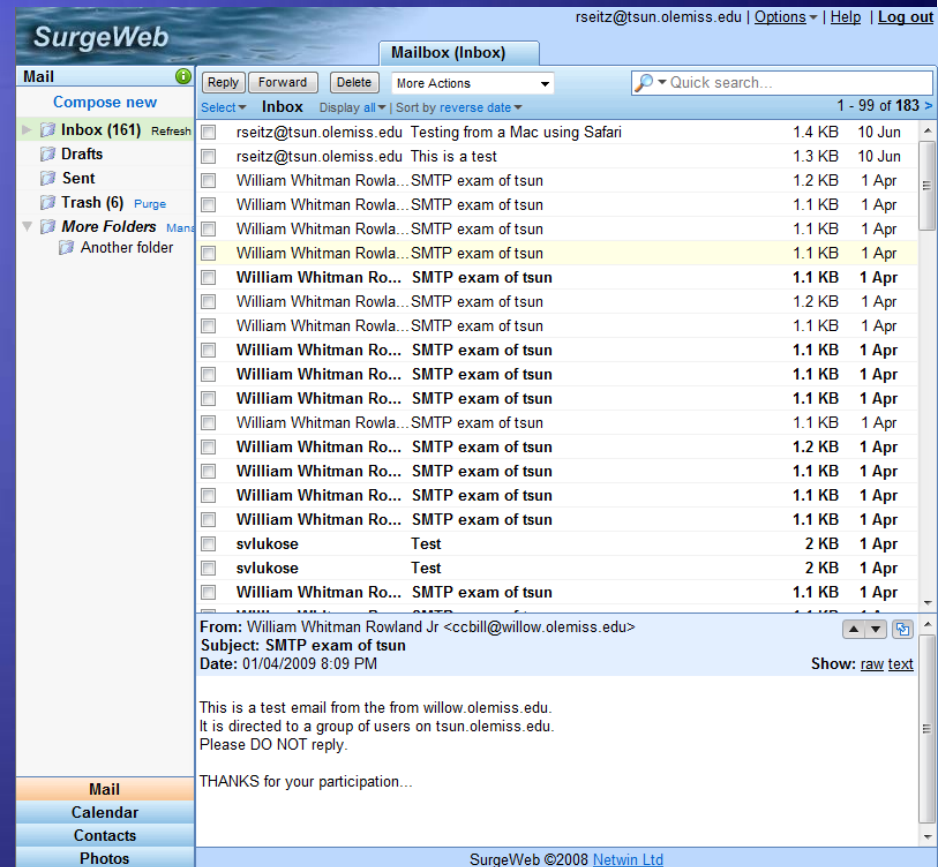

Next step in WebMail

- ◆ Cleaner, simpler layout
- ◆ Drag & drop messages to folders
- ◆ Tabbed messages
- ◆ Three views – Ajax, basic, mobile

Would still need:

- ◆ UM Branding on all three views
- ◆ Suppression of unsupported functions
- ◆ Quota display
- ◆ Rewritten Help files

jQuery

- ♦ Javascript library
- ♦ Can enhance the HTML
- ♦ Allows dynamic page changes
- ♦ New plugins can be added
- ♦ Code snippets can be standardized and shared

Pay Account

Change the Period if you want to update the list.

Last Year ▼

Old Balance: USD 0.00

Date	Description	Amount
May 26, 2009	Fee Calculation Adjustments/Request/Acceptance Request	USD 5,000.00
Jun 4, 2009	Payment Made: Discover,*****0000,,Valid To 30.11.2009	- USD 0.01

New Balance: USD 4,999.99

Amount to pay 0.00

Select the payment method you want to use:
