There was a shooting in one of the parking lots on the Skyline College campus on Wednesday, September 2 that was a result of a confrontation between two groups. Skyline College will be closed on Thursday, September 3. The San Bruno Police will continue their investigation. Skyline College will re-open on Friday, September 4. Anyone with information regarding the incident is asked to call the San Bruno Police Dept. at 650-616-7100.

If you have left personal belongings on campus, you may retrieve them on Friday at the Public Safety Office in Building 6.

# CSS-Based Web Design

- ♦ Very good tutorial for using Dreamweaver to create layout starting from scratch

<http://bit.ly/NiSoi>

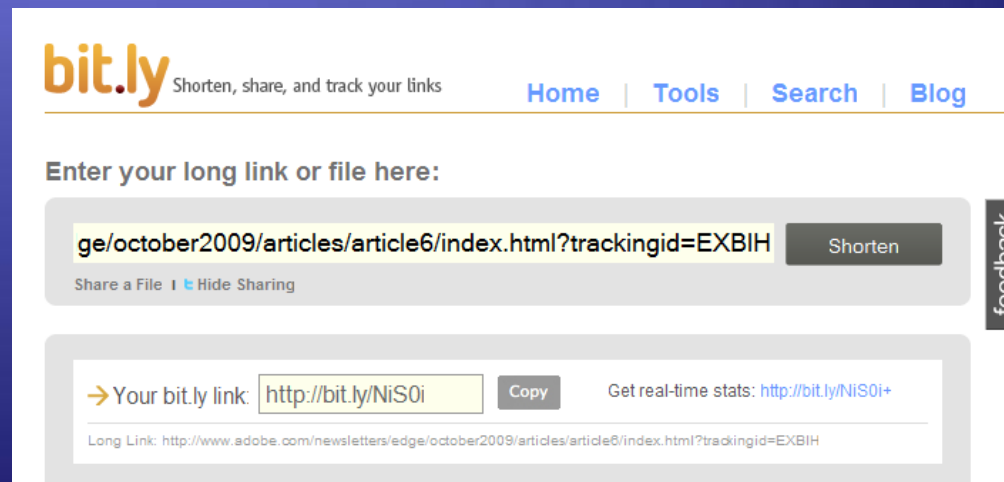

# About that short URL...

Several sites provide short URLs:

- ◆ Great for URLs that have to be e-mailed
- ◆ Nice click tracker
- ◆ Not great of URLs that have to be typed

<http://www.adobe.com/newsletters/edge/october2009/articles/article6/index.html?trackingid=EXBIH>  
= <http://bit.ly/NiSoi>

The screenshot shows the bit.ly website interface. At the top, the logo "bit.ly" is followed by the tagline "Shorten, share, and track your links". Navigation links for "Home", "Tools", "Search", and "Blog" are present. A central form prompts the user to "Enter your long link or file here:". The input field contains the URL "ge/october2009/articles/article6/index.html?trackingid=EXBIH". To the right of the input field is a "Shorten" button. Below the input field, there is a "Share a File" link and a "Hide Sharing" link. On the right side of the form, there is a vertical "feedback" button. Below the main form, there is a section showing the resulting short link: "→ Your bit.ly link: http://bit.ly/NiSoi". To the right of this is a "Copy" button. Further right, it says "Get real-time stats: http://bit.ly/NiSoi+". At the bottom, the "Long Link" is displayed as "http://www.adobe.com/newsletters/edge/october2009/articles/article6/index.html?trackingid=EXBIH".

## Podcasting on iTunes U

Experience Amazing Audio and Video of Lectures, Course Materials, and Special Events

*The University of Mississippi*

[Main Page](#)
[Getting Started](#)
[Create Course Site](#)
[Request Public Site](#)
[FAQs](#)
[Policies](#)
[Contact Us](#)

### Launch iTunes U

Requires iTunes software (Win/Mac).  
To access protected course podcasts, login to your course in **Blackboard** and select the iTunes U link provided there.

[Launch Public Site](#)

[Site Admin Login](#)

## Welcome to Podcasting on iTunes U

Download podcasts from **iTunes U**, a service that uses **Apple's iTunes application**, available for both **Mac and PC**. iTunes U provides the University of Mississippi a means for managing a broad range of audio and video content, which is available for students, faculty, and staff, with optional public access.

### Start Podcasting Today!

Faculty and staff can **create a secure course space in iTunes U** through their **Blackboard Course**. For assistance with the creation of audio and video, check out **Getting Started**.

If you are a student looking for course podcasts, login to your course in **Blackboard** and select the iTunes U link that your instructor has provided.

# typekit.com

The screenshot shows the Typekit Editor interface within a Mozilla Firefox browser window. The address bar displays `http://typekit.com/kits/3770`. The page title is "trajanpro | Typekit - Mozilla Firefox".

The interface is divided into a left sidebar and a main content area. The sidebar contains the following sections:

- Selectors (2)**: Includes a search bar with an "Add" button and two selectors: ".tk-terfens" and ".headline". A link "Advanced..." is visible below.
- Weights & Styles (2 / 6)**: A section titled "Include these in your kit:" with a list of font weights and styles:
 

Weight/Style	Size
<input checked="" type="checkbox"/> Regular	23k
<input type="checkbox"/> Italic	24k
<input type="checkbox"/> Light	23k
<input type="checkbox"/> Light Italic	24k
<input checked="" type="checkbox"/> Bold	24k
<input type="checkbox"/> Bold Italic	24k
- Subsets**: A section with a play icon.
- CSS Stack**: A section with a play icon and a description: "Typekit will use the following font fallbacks for users whose browser doesn't support @font-face". It includes a text input field with "sans-serif" and a "Save" button.

The main content area displays two font kits:

- Terfens by Insigne Design**: A green header with a "Delete this font" link. Below it, the text "AaBbCcDdEeFfGgHhIiJjKkLlMmNnOoPpQqRrSsTt" is shown in a green, sans-serif font.
- Daniel by Daniel Midgley**: A white header with a "Delete this font" link. Below it, the text "AaBbCcDdEeFfGgHhIiJjKkLlMmNnOoPp" is shown in a black, handwritten-style font.

At the bottom of the main content area, a dark green bar displays the "Kit Size: 100k 2 fonts, 4 selectors for trajanpro" and a "Publish" button. A notification bubble in the bottom right corner states: "Changes won't be live on your site until you publish them."

The browser's status bar at the bottom shows "Done" and "Fiddler: Disabled".

National Center for Computational Hydrosience and Engineering

Supported by the USDA Agricultural Research Service through funds appropriated by the U.S. Congress, the National Center for Computational Hydrosience and Engineering (NCCHE) has a mandate to foster the growth of research in computational hydrosience and engineering. The research and development activities of NCCHE cover a broad range of fields including watershed processes, channel network hydraulics, river morphology (meandering, bank erosion, etc.), flood analysis, dam break, sediment transport, water quality and pollutant transport, and river training and restoration.

Work in computational hydrosience and engineering is the foundation for the development of new research and engineering tools, computational simulation models for conducting scientific research, engineering analysis and design, and environmental and ecological impact assessments in the area of natural resources (soil and water) conservation.

# Upcoming Upgrades

## Apache & PHP on Cedar and Secure5

- ◆ Current version “wonky”
  - ◆ Sometimes displays different PHP page contents
  - ◆ Sometimes displays nothing or downloads CSS file
- ◆ Coolstack → Webstack
  - ◆ Requires changes to entire system file structure
  - ◆ Attempt to install to different file area and simply point to existing Web folder
  - ◆ Easy transition, in theory

# Social Networking Discussion

Facebook, Twitter, and other online social media have attracted the attention of students and faculty alike. The voluntary participation and self-organizing qualities of these networks has prompted reactions ranging from suspicion to acceptance. Even as parts of the University have begun exploring ways to incorporate these networks into their communication plans, the debate is still open as to how successful they will be. This seminar will be an open discussion of realistic goals, basic advice, and of the strengths and challenges that attendees have experienced in bringing social media into their workplace.

1:30 PM Tuesday, October 13, Weir 107  
with Robby Seitz & Peter Cleary
