## 9. Low Range Extension ♩ = 60-90

As with the high range extension exercise, you are welcome to try to extend lower than is written here if you can. While many of the lower notes require an F-attachment to be played with a full sound, those who don't yet have an instrument with a valve can use the same positions without the valve and play the low notes as false tones. This is both relaxing and good for your embouchure.

1 V3    2 V4    3 V5    4 V6    5 Vshort4 (false tone)    V1 1 or 6    V2 2 or 7    V3 3    V4 4
